### Product Description

## Gravelly Aggressive Tread Pattern Rear Tire Kit 791089

The aggressive tread rear tire is an ideal option for zero turn mowers and turf applications. In addition, this tire has a wider footprint which ensures high floatation for minimal compaction and a smoother ride. This tire pattern also reduces slippage, even on hill sides, to help eliminate scuffing of the turf.

- Fits Gravelly ZT HD, PT Z, PT ZX, Ariens Apex, and Zenith models
- Kit includes two rear aggressive tires

22X11.00-10 - Fits 48", 52", 60" ZT HD models
